You need to log in with your name, email and password. The free registration time is 15 minutes. We don't share your email or password with any other entity so that nobody else can get an access to your screen saver account. Q: Not able to create or update database in django I'm trying to create or update database tables using django admin. In this I've added below code in urls.py file. from django.conf.urls.defaults import * from django.conf import settings from django.contrib import admin admin.autodiscover() urlpatterns = patterns('', (r'^admin/', include(admin.site.urls)),) When I hit the url I'm getting below error Not Found: /admin/ Thanks in advance for the help. A: from django.contrib import admin admin.autodiscover() urlpatterns = patterns('', (r'^admin/', include(admin.site.urls)),) if you want to create or update the tables, as admin is the default admin handler. so whenever you access to 127.0.3a67dffeec

What's New In Moolah! The 3D Money Screensaver?

Moolah! The 3D Money Screensaver is a 3D money exploding screen saver that displays a money spinner animated by gleeful money as it spins clockwise around the background in 3D. The money spins as it moves about the screen, revealing the fascinatingly beautiful 3D graphics at the maximum settings without any annoying nag screens. Money of all different kinds of denomination are featured, from US Dollars to Yen and Euros, as well as many special denominations like the Japanese Yen 5, 100, 10,000 and 1,000,000. Also included are many precious metals, such as gold, silver and platinum coins. There are no extra features, this is a highly configurable 3D money screensaver that lets you change all the different settings so that it suits your screen. It is very easy to set up and there are no nag screens. The 3D money is displayed on your screen in a 3D motion blur effect that is synchronized with the music, so you get a full-blown, life-like 3D experience. Moolah! The 3D Money Screensaver Features: □ 3D money explodes and rotates around the background □ Over 14 different denominations of money, including bullion, precious metals and Japanese Yen □ Able to change settings to suit your screen - change amount of money, spin speed, frames per second, disable music etc □ Able to use any Windows Bitmap as the backgnd □ Comes with many different music tracks This is the best screensaver i have ever seen in my life, this program has pretty much every type of money you can think of. This one of best money screensavers i have ever used, the graphics are fantastic on a high resolution screen. If you are having trouble with 3DMoney you might want to check out this program. Hello everyone, I am very happy with 3DMoney. I just wanted to say that for a money saver to this point it is really good and worth what it is. I already spent \$20, had to go to a friend's house, and it was a heck of alot cheaper for me to find it here than to go to a store and pay \$25 for it for the day. You can't beat it. I can't wait till they release a white version for Windows 7. I can see myself laying in my seat watching this program every single day, the things you can
