Nepgear is a character who is part of the series of gaming featuring the girls of the video game Remember Me. The main protagonist, she is a high school student who wears an eyepatch and an earring and has a sister named Platinum.

Nepgear has a fantasy-themed combat style, using her sword of honor to battle the other characters in the game, who are all using different melee weapons and magic. ► **EXPERT GUIDE** The game's

manual is filled with useful information, such as information on the profiles of the characters and sound effects that can be heard in the game. If you have any questions, feel free to contact the developer, Shift-JIS Inc.

1. What is the difference between the game versions? The version of the game with the Express Pass feature will be released in Japan, and will be offered as a separate purchase option.

2. Is this a remake? Yes. The story and setting have been completely changed, but all of the original game content is included.

3. Why have you created a new game? We don't mind the popular request for a new game in the series. We thought that it could be a new story that we could create for the girls, and we wanted to put the girls on a new world with a new game. The staff was excited about making a new game to put the girls on a new world, because it's a new story.

4. How did you come up with

the new story? The story takes place in modern times, and has been completely re-written. We've also taken the role of the boys' perspective. 5. How will the characters act differently from the original?

- Nepgear acts like a character who can only use melee weapons. Her ability is not limited to magic spells. She fights like a real warrior.
- It is understood that Ayaka acts like the past character. Due to the different perspective that we took, she appears in a different way. Her abilities are limited to magic, just like in the original version. However, unlike the original, her strength will be strengthened by using weapons or armor, and her performance will be highlighted.
- Platinum acts like the original character. You can easily understand the class that she will be in the story. She fights like a mage.
- When you compare the two versions, you'll understand the different personalities of

the characters. 6
