Ever since the times of the High Speed Flight, Rain has always found herself in the shadow of her sister, Hayabusa. If it was not her responsibility to accomplish her mission as a member of the MGS-S squad, Hayabusa took it upon herself to guide Rain and do everything to protect her. As the lone survivor of the special forces squad, Rain was almost to become Hayabusa's perfect pupil until one day, Hayabusa was abducted by Vamp. While fleeing a riot in the streets, Rain came across a savior in the form of Rei, the next in line of a parallel virtual world. So, Rain had to enter V.V.V.M. for the first time. When she faced Vamp's soul-paralyzing virus, Hayabusa called her name, seemingly in front of his sister. A wounded Hayabusa. At first, she thought that he was talking to her for the sake of deceiving Vamp, but Hayabusa's last words were: "It's her fault, my sister." This shocked Rain because she did not think that her jealousy of her older sister affected Hayabusa at all. She learned her mistake. A tempting Rain. The next morning, Hayabusa was already gone. No signs of Hayabusa appeared anywhere. Rain was so desperate to see her sister that she disobeyed Major Vincent's orders and entered Rain's Law School. As Rain was waiting in the mess hall, the reporter had suddenly recognized her as the person who was so close to Hayabusa, and claimed that Rain was the catalyst. Rain was so angry that she ran away but not before hearing that Vincent was preparing a plan that could save Hayabusa. A harsh message from her father followed on Messenger telling her that "They have found Hayabusa's corpse." Rain could no longer hold it in when she thought about the truth. The day Hayabusa disappeared, Rain was in the middle of a tournament organised by Geki-sensei. Geki-sensei, however, didn't seem to care about Hayabusa and screamed at Rain instead. Chasing her
